Quick Start Guide
For Pulse Oximeter

1 Plug your gateway into a power outlet with the provided power cord and wait until the LED on the gateway turns red.
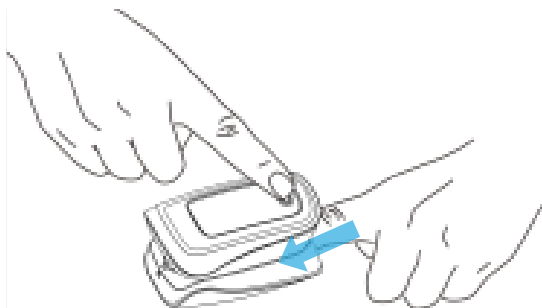

2 Open the battery cover and insert two AAA batteries into the back of your pulse oximeter.
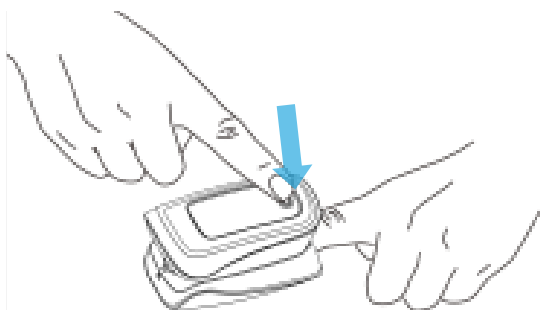

Battery cover

Battery cover lock

3 Insert one finger completely into the measurement section of the Oximeter with your fingernail pointing up towards the screen.

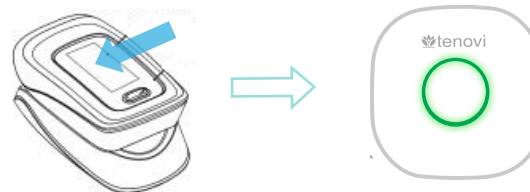

4 Stand within 20 feet of the Tenovi Gateway and press the power button on the Oximeter.

5 Keep your finger in the oximeter for 20 seconds or until you hear a beep from the Tenovi Gateway.

6 **Take one measurement per day unless otherwise advised by your healthcare provider.** The LED on Tenovi device will turn Red at the beginning of each day indicating you must take measurement for that day. The LED ring will turn Green when you successfully take a measurement and transmit it to your healthcare provider.
